CATAN GAME LOG

There are any number of phone apps that can help you keep track of your Catan scores and achievements. If you like apps, this game log is not for you. There are also any number of (usually older) players out there who think a phone is for making phone calls and prefer to record results with a pen and paper. This game log is for you!!

While recording games on the inside of the box lid is ingenious and using old bits of envelope is very environmental, I thought it would be nice to have a simple sheet that can tuck inside a game box. This folded A4 sheet allows you to record the results of 50 games and to also record some best moves and favourite moments.

And remember, playing Catan is not just about the winning, it is about getting together with friends and family and reminding them of your greatest victories and incredible moves...

... That's why you need a game log!
